

ASWITHA VIJAYAKUMAR

Chennai, Tamil Nadu | 7305197294 | aswithavijayakumar1120@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with deep expertise in the MERN stack. Skilled in building dynamic frontend interfaces with React Hooks, Context API, and Tailwind CSS, alongside robust backend APIs using Node.js and Express.js. Experienced in RESTful API development, user authentication, and performance optimization. Committed to writing clean, maintainable code and delivering seamless, responsive user experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Frameworks & Libraries: React.js, Tailwind CSS, React Router

State Management: React Hooks (useState, useEffect, useContext), Context API

API Development: RESTful APIs, CRUD Operations, JSON Handling

Tools & Platforms: Git, GitHub, VS Code, Chrome DevTools, Jira, Postman / Thunder Client

Core Competencies: Responsive Design, Component-Based Architecture, Debugging, Performance Optimization, Cross-Browser Compatibility, MVC Architecture

PROFESSIONAL EXPERIENCE

Technical Support Executive | Selfservit Solutions Pvt Ltd, Chennai *Mar 2024 – Aug 2025*

- Resolved technical issues for web applications, improving system reliability and user experience across client environments
- Executed SQL queries to diagnose and troubleshoot data-related issues, ensuring minimal downtime and data integrity
- Conducted root cause analysis on recurring incidents, implementing preventive measures that reduced repeat issues
- Collaborated with development and QA teams to maintain seamless application performance and timely deployment of fixes
- Documented technical solutions and created knowledge-base articles, improving team knowledge sharing and onboarding

PROJECTS

Glowra Cosmetics — React.js, Tailwind CSS, Context API, React Router, Node.js, Express.js, MongoDB

- Built a fully responsive e-commerce platform with dynamic product grids, category filters, product detail pages, and smooth cart experience optimized for both desktop and mobile users
- Implemented secure user authentication with protected routing via React Router; managed global cart, auth, and wishlist state using Context API, eliminating prop drilling across the app
- Integrated RESTful backend with Node.js, Express.js and MongoDB, enabling scalable product listings, order tracking, and user profile management through full CRUD operations

Task Management App — React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Built a feature-rich task dashboard with real-time search, priority filtering, status toggling, and dynamic state updates for efficient task tracking across multiple categories
- Implemented full CRUD operations with React Hooks (useState, useEffect) for instantaneous UI updates without page reloads, delivering a smooth and fully responsive user experience
- Developed RESTful backend with Node.js, Express.js and MongoDB for persistent storage, supporting task creation, editing, deletion, and completion tracking with data validation

CERTIFICATIONS

- MERN Full Stack Development** — SLA Institute 2026
- HTML, CSS & JavaScript for Web Developers** — IBM 2026

EDUCATION

B.Sc. Computer Science | St. Thomas College of Arts and Science *2020 – 2023* | 78.5%

Class XII — 73% **Class X** — 84%
